

FKM

USP**PORTABLE LIFTING GANTRY****A new level of mobility in track construction**

Very low unladen weight

Extra-wide design 2800 mm

Extremely user-friendly

Custom designs clearance 1815 mm / 3000 mm

For safely lifting and moving large switch components and rails.

The aluminum construction is lightweight and easily to assemble in two widths. The USP was developed in close cooperation with railroad engineers as a user-friendly solution that sets new standards for low weight and simple operation.

ADVANTAGES

- > Very lightweight design
- > Heaviest part **only** 27 kg
- > Also for moving conductor rails (third rail).
