## maroflex **SLT** **FLAP DISC**

The innovative design of the SLT flap disc enables optimal engagement with the material being ground and extends the disc life.

Thanks to the special structure and design of the flaps, they remain sharp even under heavy use.

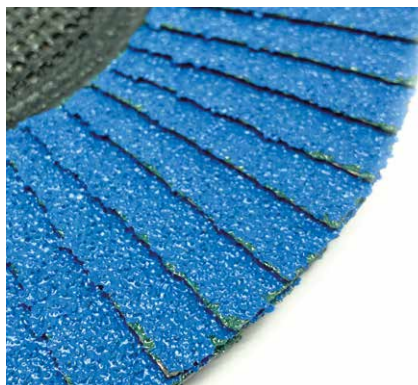

### AREAS OF APPLICATION

- > On hand-operated machines
- > For deburring switch components
- > Especially for crossing noses and switch rail assemblies

### AVAILABLE VERSIONS

- > 230 x 22.23 mm / grit 40
- > 125 x 22.23 mm / grit 40
- > 125 x 22.23 mm / grit 60
