FKM GREENTEC

HSM-PRO

BATTERY-POWERED RAIL HEAD PROFILE GRINDING MACHINE

The popular rail head profile grinding machine HSM-PRO is now available in a battery-powered version.

The HSM-PRO from FKM is suitable for all rail profiles. With its torsionally rigid frame and a 3.5 kW motor, it achieves a perfect grind with high material removal. Precise guides ensure low vibrations and user-friendly operation.

No CO₂ emissions during operation

DB approval

Compact size for transport

Adjustable track gauge

Folding carry handles

OPTIONS

- > Stainless steel shelf for tools and accessories
- > Additional weights for higher grinding performance (2 x 14 kg)
- > LED spotlight
- > Ribbed extension arm
- > Aluminum toolbox
